

TAKING ON THE WORLD

When you decide to take on the world of autosound competition, you'd better be ready to change your life. The autosound champion is a special breed—working into the night, tweaking and changing. It's knowing that you're going up against the best in the world, and you'd better be prepared.

You'll spend hours tearing your system apart, listening to it play, putting it back together, and then starting all over again. You'll even take to hanging around the car audio shop, learning how to tweak a car to wring out an extra tenth of a point in a competition. Dozens of sleepless nights. Remembering your pizza delivery man's birthday, but forgetting your girlfriend's name.

It's a sickness without a cure.

Maybe you'll win a trophy, maybe not. Maybe you'll be the next world champion, maybe not. But once it gets in your blood, you'll love every minute of it.

1999 IASCA WORLD FINALS

At the 1999 IASCA FINALS the ThunderForce Team members took home 18% of the available trophies. That capped a winning season—150 total trophies for the year.

- 12 IASCA TROPHIES
- 8 STATE CHAMPIONS
- 3 WORLD CHAMPIONS
- 16 POINTS CHAMPIONS
- 1 COMPETITIVE SPIRIT AWARD

This level of achievement doesn't come easy—it takes guts and commitment. Congratulations to all who competed.

JASON PLANCK

Jason Planck is the Director of MTX ThunderForce. He is the proverbial road warrior, spending almost every weekend at IASCA and dB Drag Racing events, supporting our ThunderForce team members. And when he's not at those events, he's building the next generation for MTX Audio.

BREAKFAST OF CHAMPIONS

It's amazing how resilient the human body is. No sleep, Cold pizza for breakfast. All for the thrill of the competition.
